

Dear Teamsters Local 14 Security Fund Plan Participants and Families,

The Teamsters Security Fund for Southern Nevada—Local 14 Board of Trustees is excited to announce that our first Family Wellness Center is now open at 1505 Wigwam Parkway, #241 in Henderson. We also look forward to opening another Family Wellness Center in Northwest Las Vegas, planned for May 2019.

The Family Wellness Centers will provide convenient, high-quality and confidential medical and wellness services plus a wide range of generic prescription drugs for all Teamsters Security Fund for Southern Nevada—Local 14 PPO Plan participants and their covered dependents —free of charge! Our HMO Plan participants can also take advantage of the centers during 2019.

The centers offer you many advantages:

- A highly qualified medical team, including a full-time primary care physician, physician assistant, nurse practitioner and medical assistants. We encourage you and your family to make this center your primary care medical home for as many visits as you need with no out-of-pocket costs.
- As needed, the center’s health care professionals will provide you with medical referrals to the most cost-effective, high-quality specialists and outside services.
- Of course, your medical information will be kept confidential, which is required by law. Activate Healthcare will not share medical information of any kind with Teamsters Local 14 or your employer. Information can be shared with your personal physician at your request.

Please read the enclosed brochure, “Get to Know Your Teamsters Local 14 Family Wellness Centers” to learn more about the great benefits available to you. This includes the Henderson center hours and contact information.

Watch your home mail or visit [www.teamsters14benefits.com](http://www.teamsters14benefits.com) for more details about the Northwest Las Vegas center opening later this year.

Your personal health and wellness is so important. The Trustees are confident that the new Family Wellness Centers will enhance the lives of our participants and their families. We encourage you to take full advantage of these free primary care and wellness services, available to both you and your covered family members.

Sincerely,

Board of Trustees
